KKE Opens a New Office in Fukuoka, Japan

Kozo Keikaku Engineering Inc. (Head Office: Nakano-ku, Tokyo, President: Shota Hattori, “KKE” hereinafter) has formally announced its opening of a new office in Fukuoka on August 19, 2016.

The Fukuoka Branch Office was established in order to expand marketing activities and seek new business opportunities in the Kyushu region.

The company’s connection with Fukuoka goes back to 1991, when KKE actively operated its business in the region. Located in Fukuoka, an activate hub for business with Asian nations, the new office will act as a trendsetter in the IoT business, where great demand is expected in the future.

KKE is committed to developing new business models and to utilizing “Engineering Knowledge” to solve social issues. We will continue to provide high-quality solutions and beneficial technology, so as to contribute to building a better society.
