KKE Opens a New Office in Nakano Ward, Tokyo

- Forming its start-up businesses and supporting the development of community -

Kozo Keikaku Engineering Inc. (Head Office: Nakano-ku, Tokyo, President & CEO: Shota Hattori, “KKE” hereafter) is pleased to announce the official opening of a new office in Nakano ward, Tokyo Japan, on December 2013.

Designated as an industrial development promotion district by the Tokyo Metropolitan Government, the Nakano Station area is a platform of Nakano Ward’s plan to develop the area into a hub for cultural and business activities, which create new energy in Tokyo. With its new office called “Nakano Innovation Office”, KKE is to form its start-up businesses, and also support the development of the existing community based businesses through its engineering technologies.

In addition, KKE joins the association “ICTCO”, which plays the roles of creating innovations within the community. KKE shall contribute building a better society with its extensive solutions for information and communication technology, disaster prevention, disaster risk reduction consultation and traffic simulation.
